

## Reception Project: How did you have fun? – Summer 1 2022

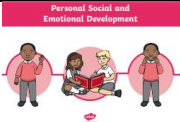

During Summer Term 1 we will be discovering lots of different ways to have fun!

We will start by sharing our favourite toys and looking at how these are different from the toys we played with when we were babies and toddlers.

We then compare our toys and games to the ones our grownups and grandparents played with when they were children.

As we go, we will be talking about the different materials the toys are made of and how they work before making our own toys and talking about how we can make them even better.

Check back each week to see how our project develops.

<h3>Subject focus and coverage</h3>	
	How we grow and change, safer strangers, resolving conflicts, working as a team.
	How and why questions, reasoning and explaining, vocab development, individual CL targets
	Handwriting continued, ball skills, using equipment, athletics.
	Phase 4 Shared and guided reading Reading and writing sentences
	Beyond 10, ordering numbers, missing numbers, consolidating to 20, spatial reasoning, adding and taking away, spatial reasoning
	How we grow and change, our personal history, life in the past, toys, materials, how they work, summer.
	Collaborative musical story, joining materials, research, design, make and evaluate
