

Class 2 Project: Ancient Civilisations Spring 1 2022

In the Ancient Civilisations project, your child will learn about three of the earliest civilisations in the world; ancient Sumer, ancient Egypt and the Indus Valley civilisation. They will study the ancient Sumerian and ancient Egyptian civilisation in detail, to discover how crucial factors like water sources and farming helped them to develop and thrive. They will find out about important inventions and the growth of cities. They will also study the lives of different people in society, including the roles of kings and pharaohs. The children will reflect on their learning by identifying the similarities and differences between the two civilisations, before studying the Indus Valley civilisation independently. They will explore sources of evidence about the location of the Indus Valley, cities and trade, and note the reasons why historians know less about the Indus Valley than other ancient civilisations. The children will then compare all three civilisations, before learning about the causes and consequences of each civilisation's decline. They will also consider whether or not these civilisations left a lasting legacy.

Subject Focus and Coverage	
English 	Reports; Discussions; Stories from other cultures
History 	Features of civilisations; Ancient Sumer; Ancient Egypt; Indus Valley civilisation; Artefacts; Timelines; New inventions and technology; Everyday life; Social hierarchy; Significant leaders; End of ancient civilisations
D&T 	Simple machines, including wheels, axles, inclined planes, pulleys and levers, exploring how they helped ancient builders to lift and move heavy loads.
